

School Council Openings 2008-2009

By Massachusetts law, each school must have a School Council composed of the principal, teachers, parents and a community representative. Parents are elected by the full parent body. Each school council advises the school principal by assisting with:

- * identifying the educational needs of the students
- * reviewing the annual budget
- * formulating school improvement plan/goals

School Councils meet once a month in the afternoon. If you are interested in serving on a School Council, please send your name, address, phone number, grades of your children, and previous school involvement to the PTO Chair for that school by September 16th.
